CAP LAMP Revolutionary Longer-Lasting, Lightweight Cap Lamp

DIMENSIONS (BATTERY)

Height	Depth	Width	Weight
76mm	31mm	75mm	0.6kg

LOW POWER WARNING FEATURE

The cap lamp includes a smart safety feature to warn the user of low battery life. When there is only 30 minutes of life remaining, the lamp will flash intermittently.

CHARGING

When fully charged, the lithium-ion battery's over charge protection system will automatically cut off the circuit to protect the battery from over charging. Once charged, the battery has approximately 14 hours life usage.

MAIN FEATURES

- Compact Design
- Electrical Short Circuit Protection
- Automatic Power Off
- LED Head Lamp
- Anti-Static Housing
- High Strength Housing
- Small in Size
- Light in Weight
- Easily Portable
- Low Maintenance
- Simple Charging
- Li-ion Battery
- Environmentally Friendly
- Rack Chargeable
- Desktop Chargeable
- European CE Certified

TECHNICAL SPECIFICATION

- Battery duration 3x longer than lead and acid batteries
- Rack and desk top chargers available
- Double sided rack charger
- ≥14 hours continuous discharge time
- LED light working voltage 3.6V
- LED light working current 0.35A
- 8 hours charging time
- Over 30000 hours life usage
- Lithium-ion battery
